Portfolio

EDUCATION

BYU-Idaho

Bachelor of Science; Data Science, Minor in Data Engineering

Certifications: AWS Certified Cloud Practitioner

Anticipated: December 2026

GPA: 4.0

TECHNICAL PROJECTS

Data Lake & Pipeline Ingestion | *City of Ammon, Idaho*

- **Tools:** GCP, Databricks, Python
- Managed the ingestion and integration of hundreds of tables spanning multiple disparate data sources, configuring GCP storage as the primary data lake.

Pokémon Meta-Analysis Dashboard & Pipeline | *Personal Project*

- **Tools:** Python, Polars, REST APIs, GitHub Actions, Streamlit
- Automated a daily ETL pipeline to ingest and parse match records into versioned Parquet datasets, powering a Streamlit analytics dashboard.

Relational Database Migration | *Fremont County Parks and Recreation*

- **Tools:** SQL, Database Design
- Designed and implemented a relational database to migrate legacy paper records into a digital system, ensuring long-term data integrity.

Big Data Engineering | *Academic and Personal Projects*

- **Tools:** Databricks, PySpark
- Processed and transformed 45B+ records, optimizing distributed compute tasks for scalability and query performance in a multi-node environment.

DevOps & Package Development | *Personal Project*

- **Tools:** GitHub Actions, Pytest, Devtools
- Developed and maintained regexpert (R package), implementing automated CI/CD pipelines, unit testing, and documentation to ensure high-quality, reproducible code.

Machine Learning Development | *Academic & Personal Projects*

- **Tools:** Python (Scikit-Learn, Keras), Polars, Pandas
- Implemented Random Forest, Gradient Boosting, and Neural Networks to solve complex classification and regression tasks, focusing on feature engineering and model optimization.

PROFESSIONAL EXPERIENCE

Brigham Young University – Idaho; Rexburg, Idaho

Teaching Assistant

January 2026 – July 2026

- **Introduction to Statistics:** Mentored students on core statistical concepts, data distribution analysis, and on the basics of R and RStudio.
- **Applied Linear Regression:** Assisted students in mastering diagnostic procedures, model remediation, and theoretical application of regression models.

Accessibility Specialist Team Lead

September 2023 – July 2025

- Led a team of specialists to ensure university courses met accessibility standards through consistent auditing and workflow improvements.
